TANTRA ENTERPRISE

We Build Your Revenue Engine With You, From Cold Traffic to Closed Revenue

You close well once the right buyer is on a call. The hard part is getting enough of those calls every week without carrying the whole funnel yourself. I built Enterprise for exactly that: my team builds the funnel with yours, runs it beside you, and coaches your people until they can run it alone.

What We Build Together

1. Traffic
Cold email, calendar invites, LinkedIn outreach, paid ads and content, every channel tracked to revenue

2. Landing and registration
Branded pages and forms that turn clicks into registrations

3. Multi-channel nurture
Email, WhatsApp and AI voice reminders that get people to show up

4. Conversion mechanism
A live event, a video sales funnel or a multi-day workshop, whichever fits your offer

5. Revenue pipeline
An 11-stage pipeline with discovery, demo and closing scripts, checkout and onboarding

6. 52-week growth
A full year of follow-up that keeps turning your list into repeat revenue

One AI agent that writes, sends, routes, books and reports across all six stages.
